Waste collection companies -
test on ISUZU P75 -5.2 vehicle

Experimentation on a
compactor

Associated with FAI Verona

**Test with BPP from
Dimsport: copy and
public relations**

WLTP cycle test

SER.I.T PROJECT (LOCAL HYGIENE SERVICE - Verona)

PROJECT GOALS

- **INNOVATION:** the HYMOOV device installed on 1 ISUZU brand compactor (carries out the selective collection of waste) for an operational test which will make it possible to collect data on the positive impact of the device on pollutants, Co2 and on the calculation of fuel consumption .
The installation consists of 1 HYMOOV device for each vehicle
- **DATA EVALUATION AND CERTIFICATION :** All test data will be analyzed and then certified by certified organizations
 - ✓ Provision of the vehicle for testing: Serit S.r.l
 - ✓ HYMOOV device: Acca Industries srl
 - ✓ Energy efficiency certification: ATS Srl
 - ✓ Experiment supervised by FAI Verona
